## **GERBER PREMIUM FEEDING SYSTEM**

*Designed to Make Breast Milk Expression and Feeding  
More Comfortable and Convenient*

---

### **FACT SHEET**

Motivated by input from moms and doctors, Gerber designed the *Premium Feeding System* to help moms conveniently and comfortably feed breast milk to their babies. The *Premium Feeding System* is a completely integrated line of products, designed to encompass all of mom's breast pumping, storing and feeding needs.

Products featured in the Gerber *Premium Feeding System* include:

- Massaging Manual Breast Pump features a funnel that simulates the motion of a baby's lips and mouth while nursing. The pump is designed to create a comfortable and convenient experience by simulating a baby's natural nursing rhythm. The pump's handle is ergonomically designed to enhance mom's comfort. The Massaging Manual Breast Pump offers a quick and easy four-step assembly process for busy moms, with no small parts to lose.
- Massaging Manual Breast Pump Express & Go™ Kit contains Gerber's unique Massaging Manual Breast Pump plus all the accessories needed for a mother on the go, including a microfibre carrying bag with an insulated storage case.
- 7 oz. Transition Cup features adjustable handles designed to comfortably fit baby's grip. This spill-proof cup also has a soft, flexible spout and attaches directly to the Massaging Manual Breast Pump.
- ComfortHold™ Bottles have a unique triangular shape to fit baby's and mom's grip. The bottles feature silicone nipples with a natural shape for easier latch-on. Sure Flow Vents™ allow less air in baby's tummy. The bottles are available in 5 oz. and 9 oz. sizes and attach directly to the Massaging Manual Breast Pump.
- Infant Starter Set contains five ComfortHold™ Bottles and Comfort Latch™ Nipples along with two extra nipples for a total of seven nipples.
