

How to Soothe Your Baby During Teething

Babies 6 months and older:

- In order to help baby soothe, we've developed edible options to help soothe teething babies 6 months and older who are accustomed to eating solid foods.

Soothe 'n' Chew Teething Sticks, for babies 6 months and older:

- Made with wholesome grains and real banana, this long-lasting edible teething stick is the first of its kind and has a firm texture to help soothe teething gums while your baby mouths the stick. Gerber [Soothe 'n' Chew](#) is designed to soften slowly into crumbs as baby chews. You can find Soothe 'n' Chew exclusively at Walmart.

Gentle Teething Wafers, for 7 months and older:

- [This teether](#) begins to dissolve easily right away. Each wafer is flavored with real juice, fruits, and veggies for your little one. The easy-to-grip design encourages self-feeding and helps soothe teething gums.

Teether Wheels For Crawlers, for 8 months and older:

- [Teether Wheels](#) are a firm snack that softens into small flat pieces for baby to chew. The large shape is perfect for babies to hold, grasp and mash.
